

What is a tangram?

A Chinese tangram is a puzzle constructed of the same 7 flat pieces of a square: 2 small triangles, 1 medium triangle, 2 large triangles, one square and one parallelogram. Using the pieces, you can create various pictures of people, things and animals. The shapes can not overlap each other.

How to use this book:

1. Print out the tangram that you would like to complete.
2. Cut out the 7 shapes from the square.
3. Complete the picture using the shapes. The degree of difficulty varies for each picture puzzle.

Difficult - create the tangram puzzle on the blank page

Medium - complete the tangram puzzle on top of the page with the picture on it with no outlines on puzzle pieces

Easy - complete the tangram puzzle on the page with each shape outlined.
