

Therapy Tickets Reward System

Directions: The therapy ticket reward system works like a basket raffle. Put a few prizes on a table that would interest the children. In front of each prize place a cup. If a child is successful during therapy or completes a therapy home program, the child gets to write his/her name on a ticket. Then the child chooses which prize he/she would like to try to win. Once decided, the child should place the ticket with his/her name in the cup in front of the prize. At the end of the week or month, draw one ticket out of the cups to see who wins each prize.
