

## ***HOLE PUNCH PLAY DOUGH***

**Directions:** Lift up or remove the metal hole punch catcher from the hole puncher. Flatten the play dough between your fingers or use a rolling pin. Hold the dough in the hole puncher and squeeze the hole puncher. Little dots of play dough will fall out.

Print out the following page to make a colorful fish or frog with spots. Try using the tiny circles for sprinkles on pretend play dough cupcakes. Pick them up and arrange them in a pattern or make a big colorful spot.
