## "Build It Three Ways" Tactile Learning Fine & Visual Motor Skills

Looking for a multisensory building mat to work on learning letters, numbers, and shapes? Well, look no further! This 3-in-1, “Build It Three Ways” letters, numbers, and shapes multisensory activity has three of the most popular building mats conveniently located all on one page! This “Build It Three Ways” mats offers a good variety for children to use this multisensory approach to learn letters, numbers, and shapes by using different sensory-tactile objects.

Perfect for on the go school-based OTs or educators to have to be pulled out and be used whenever and with whatever materials or supplies they have on hand. Eliminates the need to print different mats. The variety gives you as the therapist/educator/parent options to help your child learn letters, numbers, and shapes all while working on their fine motor, visual motor, and sensory processing skills! Build one, two, or all three in one sitting! Child will surely enjoy exploring and playing with the different tactile mediums used during this activity.

**Build It #1 (top box)** - can be built with wikki stixs, pipe cleaners, yarn or string.

**Build It #2 (middle box)** - can be built with Playdoh, putty, modeling clay, or floam.

**Build It #3 (bottom box)** - can be built with any small manipulatives you own or have at home such as beads, mini erasers, pom poms, beans, cereal, candy, lego pieces, mini rocks, coins, & the list goes on and on!

**GRAND TOTAL = 192 pages!**

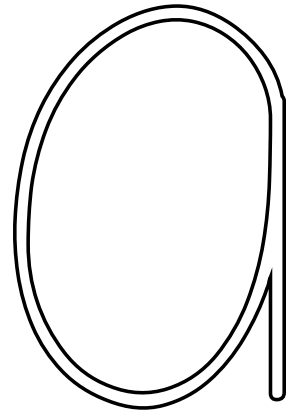

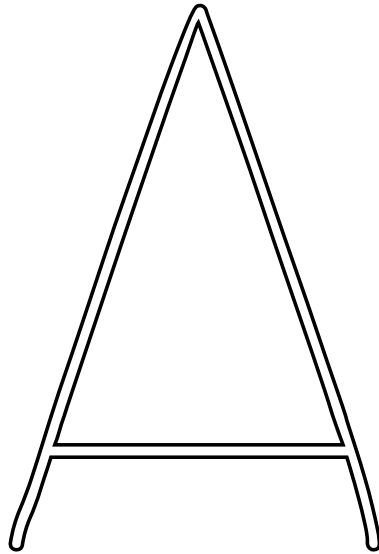

A **multisensory approach** to learning has been shown to help children learn and retain information far better than learning from pencil to paper tasks done alone. There has been many scientific research that backs up its effectiveness! Multisensory means using visual, auditory, tactile, and kinesthetic activities to engage the learner and enhance memory of what was learned.
