

This Memory Game is from the Complete LINES IN MOTION packet.

Memory Lines Game

PREPARATION:

Print one line page and one blank page. Hang the blank page on the wall or board, and place the line page on a desk or chair several feet away from the board.

HOW TO PLAY:

This is a two player game. On GO the players study the line page. Then they run to the blank page and draw the lines in the right order based on what they remember. If you forget, you run back to study the line page.

The first player to complete the blank page with the lines in the correct boxes is the winner.

OPTIONS:

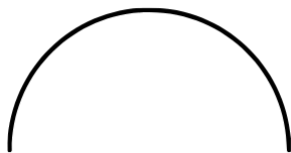

One Player Game: Time yourself and see how quickly you can remember all the lines in the correct location.

Obstacle Course: Add obstacles between the line drawing and the blank page.
